

National Association of Professional & Executive Women

Kathy L. Colon

Inducted into the NAPEW "Women of Excellence" Registry

Kansas City, KS-March 28, 2008 - The National Association of Professional and Executive Women recognizes Kathy L. Colon, President of Try-Visions, LLC, for her commitment to excellence. Her induction into the "Women of Excellence" Registry acknowledges her success and professional achievements. The National Association of Professional and Executive Women is dedicated to providing the networking resources, education and marketing services necessary to empower professional and executive women nationwide.

Ms. Colon has an impressive background in the computer technology industry. It is her expertise in webpage and artwork that enhances the professional services provided by her business. Try-Visions are a national computer technology company providing services including webpage development, graphic design, database development and training. In addition to serving as President, Ms. Colon also handles graphics, artwork and overall business development. She works diligently to maintain its outstanding reputation and takes pride in the excellent service they provide.

As a leader who has been very successful in her field for 25 years, Ms. Colon attributes her personal and professional success to having excellent customer service skills and strives to meet the needs to others. She first became involved in this industry when she saw a need for technical support in her area. The highlight of her career has been the variety of people she has met from many different backgrounds over the years.

Ms. Colon is affiliated with the United Minority Media Association and the Black Chamber of Commerce of Kansas City. She donates charitably to various local and community groups and organizations.

In her spare time she enjoys art.
